Video Screencasting Using Screencast-O-Matic

IT-DD-9: Plan, edit, produce, and post a multimedia-rich video project.

- **Students will choose ONE application from a list of Web 2.0 tools and will log in and explore the application. OR…Students may choose a Web 2.0 tool not listed below (must be approved by teacher).**
- **Students will create a demonstration video (2 to 5 minutes in length) providing an overview of the basic features of the web tool. They will use http://www.screencast-o-matic.com/ **No download required** However, Java is required.**
- **Students will create a Screencast-O-Matic account and publish their video to their account.**
- **Students will submit a working URL to Edmodo for evaluation.**

1. Students choose ONE (1) from the following list of applications or choose another tool (with teacher approval).

   1. Narrable
   2. Animoto
   3. Smore
   4. Glogster
   5. Haiku Deck
   6. Prezi
   7. Weebly
   8. Podbean
   9. Tripline
   10. Letterpop
   11. PinWords
   12. Audioboom
   13. Pixlr Express (Click on Pixlr Express)
   14. Voki
   15. Tagxedo
   16. Wordle
   17. Padlet
   18. Popplet
   19. Mindomo
   20. Fotobabble

2. Students should be given time to log into the application and explore. They need to be **VERY** familiar with the application so as to thoroughly demonstrate it through a video screencast. **Write a script**

3. Watch the tutorial below on how to get started with Screencast-O-Matic.

   Tutorial: Getting Started with Screencast-O-Matic

4. Watch the example of a tutorial I created using Screencast-O-Matic.

   Example: Vocaroo Tutorial

5. Students will create a 2 to 5 minute video tutorial on how to use their chosen application. See rubric below:

Explaining Cool Tools Assignment Rubric		
Criteria:	Ratings	Pts
Public, operable video URL is submitted through Edmodo.		1 pt
Screencast is **no longer than five minutes** in length and **no shorter than two minutes** in length.		1 pt
Student's Name and Title of Tutorial is clearly stated at the beginning of the screencast.		3 pts
Screencast is clearly developed and provides an **overview** of a Web 2.0 tool.		3 pts
The screencast is narrated appropriately and clearly.		2 pts
Total Points:		10 pts
